 CBD Only

HOW IT WORKS

**THE ECS**  
 ENDOCANNABINOID SYSTEM

The Endocannabinoid System, or ECS for short, is a biological system composed of endocannabinoids, which are neurotransmitters that bind to cannabinoid receptors. These go all throughout your body and nervous system, including the brain. The ECS is involved in properly regulating physiological and cognitive processes including fertility, metabolism, pregnancy, appetite, pain-sensation, mood, sleep, and memory. The first way your body's ECS is engaged is by receiving endocannabinoids in breast milk as a baby! We are meant to have these!

**CAPSULES**

HOW TO USE

Capsules and softgels can be taken as a daily supplement regiment. Start with one or two a day and increase dose as needed. Take on an empty stomach for faster absorption.

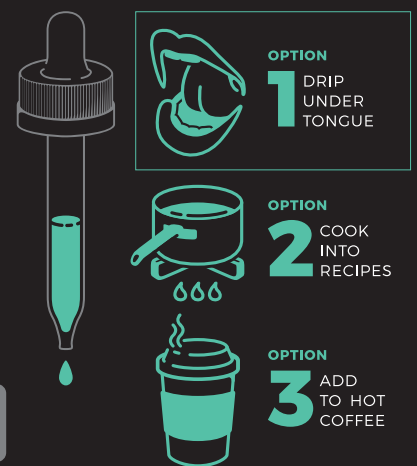

**TINCTURES**

HOW TO USE

THERE ARE 3 APPLICATION OPTIONS

Sublingual, meaning under tongue, is the most suggested use for hemp oil drops. Simply drop 10 drops under the tongue and repeat as needed. But there are other options out there like \*cooking with CBD or \*adding to certain food or drink.

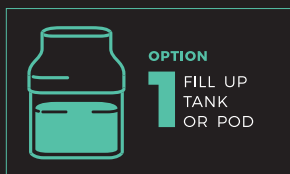

**USE CAUTION WHEN COOKING OR BEFORE ADDING TO FOOD. RESEARCH PRECISE METHODS AND RECIPES PRIOR TO USE.**

# VAPE ADDITIVES / PENS

## HOW TO USE (ADDITIVES ONLY)

THERE ARE 2 APPLICATION OPTIONS

Vape additives can be vaped alone or added to other e-liquids inside a refillable vape tank. Some additives can also be used sublingually for new CBD users looking for a cheaper option to start out.

## HOW IT WORKS

**bio·avail·abil·i·ty** /,bīō,əvālə'bilədē/  
noun

: the degree and rate at which a substance (such as a drug) is absorbed into a living system or is made available at the site of physiological activity

- 5-10% TOPICAL
- 4-20% CAPSULE
- 40-50% TINCTURE

# FOR PETS

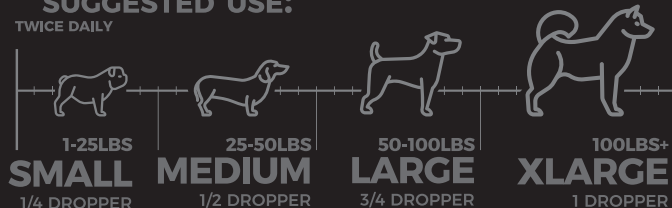

## HOW TO USE

THERE ARE 3 APPLICATION OPTIONS

### SUGGESTED USE:

TWICE DAILY

## DRINKS

**FOCUSED ENERGY**

**CHILL RELAXATION**

ENERGY BLEND	RELAX BLEND
CAFFEINE	GABA
TAURINE	KAVA
D-RIBOSE	L-THEANINE
DIMETHYLGLYCINE	-
MALIC ACID	-
25MG CBD	25MG CBD

## HOW IT WORKS

**Relax Blend or Energy Blend + CBD!**

Full spectrum hemp extract is not water soluble, so we created this CBD isolate product for those who prefer a drink over a tincture, vape additive, or capsule.

ONLY CBD ISOLATE IS **WATER SOLUBLE**

for those who prefer drinks over other methods of use.

## TOPICAL

### HOW TO USE

APPLY GENEROUSLY TO AFFECTED AREA. REPEAT AS NEEDED.

**AIRLESS PUMP BOTTLE**

**ZERO WASTE**

The airless bottle has no dip tube but rather a diaphragm that rises to evacuate the product. When user depresses the pump, it creates a vacuum effect, drawing the product upwards.
